

OIL ABSORBENT

DESCRIPTION:

Industrial absorbent manufactured with totally inert inorganic components, ensuring a high degree of safety in the process of removing chemical products.

APPLICATIONS:

Absorption for spillages in industrial facilities.

Removal of water-based products, grease stains, solvents, hydrocarbons, industrial oils, vegetable oils, acids and bases, etc.

Applicable in workshops, chemical industry, food industry, oil mills, warehouses, farms, delivery trucks, etc.

PROPERTIES:

High absorption capacity for oil, hydrocarbons and aqueous media.

Totally inert, non-combustible, chemically inert.

Safe for humans and animals.

TECHNICAL DATA

Mineralogical analysis (XRD)	
Sepiolite	Min. 65%
Density (BS 1460)	Max. 0.71 g/cc
Ph	8.5 ± 1.0
Westinghouse Absorption Test	
Water	(Min. 100%)
Oil	(Min. 50%)
Humidity	Max. 11%

NOTES:

Once the spill has been removed, it is recommended that the waste be collected in suitable containers, properly labelled for delivery to an authorised organism.

In the event that the spillage is considerable, notify the local authority.

PACKAGING:

20kg plastic sack.
