

MASTERCLEAN ECO - PAST

Biodegradable hand-cleaning paste with natural exfoliant

DESCRIPTION & FEATURES:

Biodegradable hand-cleaning paste with natural exfoliant to remove extreme dirt without any of the skin irritation typical of industrial soaps based on gel that contain abrasives and solvents. With long-lasting dermoprotective effect.

Great cleaning power.

Keeps skin and hands soft.

With natural exfoliant, free of mineral abrasives, it does not damage the skin and avoids drains and pipes becoming clogged.

A small amount of water is sufficient to remove all types of dirt.

APPLICATION:

Its area of application includes mechanical workshops, graphic arts, and industry in general where it is necessary to clean oils, greases, soot, graphite, metal dust, and lubricants.

PROPERTIES:

Biodegradable paste.

With cleaning enhancer.

Suited to the pH of the skin. Does not cause dermatitis even after prolonged and intense use. Does not contain any solvents or hydrocarbons.

With natural biodegradable exfoliant. With cutaneous protector. Soap-free. Perfumed.

PRESENTATION:

5L bottle.

DIRECTIONS FOR USE:
