

OLICUT TF

DESCRIPTION:

Very fluid cutting oil, with a high content of anti-corrosive, anti-foaming, antioxidant, bactericide additives and others that award it with extreme pressure properties.

PROPERTIES:

- Its composition guarantees the perfect preservation of tools.
- Has excellent moisturising properties.
- High cooling and lubricating power.
- Prevents the early wear and tear of tools.
- Contributes to obtaining a perfect finish.

APPLICATIONS:

- Specially formulated for deep drilling operations on ferrous alloys.
- Trimming of gears, broaching. High speed.

TECHNICAL DATA

PHYSICAL-CHEMICAL CHARACTERISTICS	STANDARD	VALUE
NATURE	-----	PETROLEUM
DENSITY AT 15°C	ASTM D-1298	0.915 - 0.930
COLOUR, Max.	ASTM D-1500	3
VISCOSITY, cSt AT 40°C	ASTM D-445	15,0 - 19,0
FLASH POINT, °C Min.	ASTM D-92	170
STEEL CORROSION	CETA - 20516	COMPLIES
OXIDATION RESISTANCE (AGEING)	CETA - 20529	COMPLIES
