FLOW BRILL (SPRAY)

DESCRIPTION:

Spray product especially designed to polish and renew surfaces.

APPLICATIONS / ADVANTAGES / FEATURES:

- Cleans, renews, and polishes dashboards, leatherette, plastic seats, vinyl ceilings and components, door panels, glove boxes, bumpers, etc., bringing them back to their original appearance.
- ✓ It revitalizes plastic materials which have been damaged by the sun's rays, giving them a pleasant feel and texture.
- ✓ It prevents dust from sticking to the surface, thus providing more long-lasting cleaning in the interior of the vehicle.
- ✓ Applied on bodywork it repairs surface scratches and removes oil, grease, and tar stains without damaging the paintwork.
- ✓ Pleasant scent, lightly perfumes the interior of the vehicle.

HOW TO USE:

Apply with short, separated sprays at a distance of 20 to 30 cm from the surface to be polished. Spread the product out uniformly with a clean cloth, an action which will instantly achieve a perfect shine.

ADVICE / PRECAUTIONS:

Spray product, pressurised container. It is recommended that the handling advice displayed on the label of the product and/or on the safety sheet is followed.

PACKAGING:

520c.c. spray in a box of 12 units.
